SUMMARY

Meticulous Front-End Web Developer and passion for responsive website design and a firm believer in the mobile-first approach. And my software development skills allowed me to build up my Data structure abilities.

SKILLSET

Languages: Java, Python, C, JavaScript, PostgreSQL.

Technologies: React, HTML5, CSS3, MongoDB, NextJs, Material-UI.

Platforms: Git, Linux, IntelliJ, Canva, Figma.

EXPERIENCE

Front-End Intern at Manidhay Business Services

August 2022 - November 2022

Certificate - Developed a Prototype (React)

Chikkamagalur, India

- Developed a prototype for a site valuation platform to facilitate a loan from a bank.
- Worked on React for responsive Front-End minimal UI and connecting a Back-End to Rest API.
- Designed in materialUI (React) to create a User/Bank readable responsive form in Front-end.

Script Winter Of Code (Open Source)

Dec. 2021 - Feb 2022

Github - Link

Remote

- Developed a small snake game in Javascript with clean and minimal UI.
- Contributed to Healthbliss an established codebase (open-source project) in Javascript.
- Researched and implemented a changes in open-source projects like Board-Games, AutomobileGallery etc.

Hacktoberfest - 2021 (Open Source)

October - 2021

Github - Link

Remote

- Improved the existing student portal project by Creating a custom PDF viewer.
- Responsible for creating a loading animation, spinner wrapper, etc to Developer-Students-Club-ABESECC.
- Integrated the House-of/Contributors-wall by merging my project with the organization.

PROJECTS

Finding a Coding Gig - Link - | Javascript, NodeJS, PostgreSQL, ORM, Git

January - 2022

- Developed a full-stack web application using NodeJs and ORM with Javascript as a frontend.
- Implemented Search optimization to get data from users' repositories or users' resumes.
- Executed a form to add or create a Gig for a particular technology.
- Created a SQL Database to store the data of a Gig created by an admin.

Code-Pen Clone - Link - | HTML, CSS, React, Git

Dec - 2022

- Designed a responsive Front-end application using React and Codemirror(react17).
- Used a hook called useLocalStorage(SrcDoc) to connect a data from Codemirror to terminal
- Created a custom-designed front-end in HTML, CSS, React and used Fontawesome (React/Fontawesome-icons) with external library called Codemirror(React17) to propagate a clean and Minimal UI.
- Configured and implemented some auto-saving effects in Codemirror by using a hook called useLocalStorage.

EDUCATION

AIT Chikmagalur (Adichunchanagiri Institute Of Technology)

Chikmagalur, India

B.E in Computer Science and Engineering 7.83 GPA

Aug. 2019 - May 2023

HKS Hassan (HKS Pre-University College)

Hassan, India

PUC in Science 85.6 Percentage

June 2017 - May 2019

HONORS & AWARDS

Inter University

Dec. 2020 - Aug. 2022

Google Drive Link

Remote

- Completed a 30 Days Of Google Cloud Program
- Completed a 1 Month Of Software Engineering Virtual Experience At JP Morgan Chase
- Participated in HackBytes Hackathon Competition
- Contributed to Script Winter Of Code, A Open Source Organization
